PROFILE

Full Stack Developer with hands-on experience building scalable web applications using React.js, Node.js, Express.js, MySQL, and AWS. Skilled in REST API development, responsive UI design, authentication, cloud storage, serverless workflows, and database-driven application development. Experienced in delivering end-to-end features from backend APIs and database design to optimized frontend dashboards and production deployment.

PROFESSIONAL EXPERIENCE

Full Stack Developer (Cloud & Web) 2SSquare Solutions

May 2024 – Present

- Engineered analytics dashboards and reusable React.js components, improving UI responsiveness and reducing page load time by ~25%.
- Designed and delivered RESTful APIs using Node.js and Express.js for leaderboard, analytics, notification, and data-driven modules.
- Integrated AWS Amplify, Cognito, and Amazon S3 to support secure authentication, user management, and scalable file storage.
- Built event-driven leaderboard workflows using AWS Lambda and DynamoDB Streams for real-time analytics updates.
- Established push notification pipelines using Firebase and AWS AppSync to support targeted and real-time user communication.
- Contributed to AI-powered notification workflows using AWS Bedrock for automated and personalized message generation.
- Optimized frontend data handling and backend API workflows to improve application performance and maintainability.

PROJECTS

Dashpod – Sports & Fitness Analytics Platform

May 2024 – Present

Tech Stack: React.js, Node.js, Express.js, AWS (Lambda, AppSync, DynamoDB, Amplify), MySQL

- Built responsive analytics dashboards using React.js for tracking player performance across multiple categories.
- Integrated AWS services for authentication, storage, real-time synchronization, and analytics workflows.
- Developed ranking and performance visualization modules to improve data visibility and user decision-making.

EmbeHome – Inventory & Storage System

Tech Stack: React.js, Node.js, Express.js, MySQL

- Developed a full-stack inventory management system to reduce manual tracking and improve operational efficiency.
- Implemented stock tracking, product lifecycle management, and reporting workflows for business operations.
- Built backend services using REST APIs, validation layers, and modular routing for maintainability.
- Optimized MySQL schema design to improve query performance and data retrieval efficiency.

Personal Portfolio Website

Live: <https://pavanvallabhareddyportfolio.pages.dev> 

Tech Stack: React.js, Vite, HTML5, CSS3, JavaScript, Cloudflare Pages

- Designed and developed a responsive personal portfolio website to showcase projects, skills, achievements, and professional experience.
- Built a clean and modern UI using React.js and Vite with responsive layouts for desktop and mobile devices.
- Deployed the website on Cloudflare Pages with HTTPS-enabled hosting for fast and accessible project presentation.

ACHIEVEMENTS

- Completed an intensive 200-day full-stack development program, building and deploying multiple applications including REST APIs, dashboards, CRUD systems, and database-driven projects.
- Maintained a consistent 200+ day development streak, demonstrating discipline, problem-solving ability, and continuous hands-on implementation.
- Developed real-world features such as authentication systems, API integrations, dynamic dashboards, backend services, and cloud-connected workflows.
- Strengthened full-stack development skills through practical project development using React.js, Node.js, SQL, JavaScript, and AWS.

SKILLS

Frontend Technologies — React.js, Vite, JavaScript, HTML5, CSS3, Responsive Web Design, Flexbox

Backend Technologies — Node.js, Express.js, Python, RESTful APIs, Authentication & Authorization

Databases — MySQL, PostgreSQL, SQLite, Amazon DynamoDB

Cloud & AWS Services — AWS Amplify, EC2, Lambda, S3, Cognito, IAM, DynamoDB Streams, AppSync, EventBridge, CloudWatch, AWS Bedrock

Developer Tools — Git, GitHub, Visual Studio Code, Thunder Client, Firebase, GraphQL, Cloudflare Pages

EDUCATION

BVC Engineering College,

2020 – 2024 | Odalarevu, India

B.Tech in Computer Science Engineering (AI & DS)

CGPA: 7.98
